Roll-up Window Awning

NuImage awnings will add beauty and elegance to your home's exterior. Awnings will benefit the interior of your home as well by eliminating fading to carpets and furniture caused by damaging sun rays. Fabric window awnings will also help you save on summer cooling costs by reducing solar gain by up to 77% and the temperature in your home by up to 15 degrees. NuImage awnings and canopies are available in several styles to fit nearly every application. Like all fabric awnings they are not designed for use in snow. They are easy to remove and store for winter, and quickly re-attach in the spring. We have over 100 beautiful Sunbrella® fabric patterns to choose from whether you want to make bold statement or simply blend to your home's exterior decor.

Bronze finish framework will never rust

Center rafters provide added support and stability.

Choose from over 100 fabric patterns in solids and stripes

Each awning is finished with a braid color to match.

Heavy-duty mounting bar.

Roll-up Window Awning

When you need protection from the elements, NuImage Aluminum products are the perfect choice. Our aluminum awnings and canopies are made to last and feature a beautiful milled finish aluminum framework. Door canopies are designed to protect your entry from both the rain and the snow. Heavy-duty support arms are standard with optional sidewings available to fully enclose your canopy. Aluminum window awnings are available in several models to fit almost any window style. NuImage features both stationary or roll-up designs. All aluminum products have a two-coat baked-on enamel finish for lasting performance. All awnings are available in either a solid or striped pattern.

Choose From 13 Bake On Colors To Match Your Home

100% Satisfaction Guarantee

We offer services and warranties that far outweigh the competition.

Precision Quality from Proven Performers

Sunbrella Fabric:
