G250

Partially Cassetted Retractable Patio Awnings

The G250 has patented articulating shoulders that provide easy to adjust pitch control. These drop forged castings will last a lifetime.

The partially enclosed hood is drawn down at the back to cover the roll of the fabric making this awning perfect for roof mount applications.

The articulated arms are covered at the front by the large, rounded frontrail.

The sides of the partially cassetted G250 are sealed by an elegant aluminum side cap.

The G250 has an integrated draining system that allows water to flow out of the engineered holes that are positioned to the sides of the frontrail.

FEATURES:

- Powder coated White, Almond, Black/Brown or Sand frame
- Welded acrylic seams for increased seam strength
- Perfect for roof mount applications
